

CRISTIAN ANGELO M. SITJAR

JUNIOR SOFTWARE ENGINEER

Rosario, Cavite, Philippines | casitjar@gmail.com | 09995795858

PROFESSIONAL SUMMARY

Computer Engineering graduate with 2 years of professional software engineering experience focused on backend systems using Erlang/OTP. Leverages AI-assisted coding and modern automation tools to efficiently build, debug, and expand full-stack skills across web and mobile projects (JavaScript, PHP, MySQL, Flutter, NestJS, Cloud Firestore, and REST APIs). Experienced in database operations, debugging, and team collaboration.

TECHNICAL SKILLS

Programming & Web: JavaScript, TypeScript, PHP, C++, HTML, CSS

Backend & APIs: Erlang/OTP, NestJS, REST APIs, Webhooks

Frontend & Mobile: Flutter

Databases: MySQL, Cloud Firestore, Mnesia, ETS

Automation & Tools: n8n, OpenAI API, Gemini API, Git, GitHub, Vitest, XAMPP, Postman, Bruno

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER | JRA Technologies Inc. | Makati City | **Jun 2024 – Jun 2026**

- Developed and maintained backend services and business logic using Erlang/OTP.
- Implemented database operations and CRUD functionality for enterprise applications.
- Debugged application issues and supported testing, deployment, and system maintenance.
- Contributed to data migration and troubleshooting bulk data insertion issues using message-queue processing.

O.J.T | A.L. E-Components International Incorporated | Rosario, Cavite | **Jul 2023 – Aug 2023**

- Performed hardware and software troubleshooting and manual testing, documenting issues for follow-up.
- Installed and configured Windows and assisted with IT asset inventory and technical support.

PROJECTS

Fleet Management System | JRA Technologies Inc. | *Erlang/OTP, CRUD, Message Passing, State Machines*

- Professional backend project supporting fleet, vehicle master list, car rental, and billing functionality.

RLMS - FSFI (Loan Management System) | JRA Technologies Inc. | *Erlang/OTP, Data Processing, Business Logic, APIs*

- Implemented backend CRUD functionalities, loan calculation logic, and record management workflows.

AI-Powered Workflow Automation Pipeline | *n8n, OpenAI API, Gemini API, Webhooks, REST APIs*

- Personal project exploring AI-assisted workflow automation and API-based service integration.

Cartly – Shopping List Application | *Flutter, NestJS, Cloud Firestore, REST APIs, Vitest*

- Personal mobile application with a NestJS backend and Firestore integration; includes automated tests.

Student Portal | *PHP, MySQL, JavaScript, HTML, CSS, XAMPP*

- Personal web application with login, sign-up, logout, and separate admin and student dashboards.

EDUCATION

Bachelor of Science in Computer Engineering | Cavite State University – CCAT Campus | Apr 2024

TRAINING

Erlang Engineering Bootcamp — JRA Technologies Inc. Completed a three-level engineering bootcamp covering functional programming, data encryption, bit manipulation, and in-memory database replication using Mnesia and ETS.
