

CRISTIAN ANGELO M. SITJAR

SOFTWARE ENGINEER

B10 L22 Karla Ville Subd. Wawa III, Rosario, Cavite | casitjar@gmail.com | 09995758558

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Engineering graduate with 2 years of experience as a Software Engineer specializing in backend development. Skilled in Erlang programming and server-side application development.

PROFESSIONAL EXPERIENCE

SOFTWARE ENGINEER | JRA Technologies Inc.

Jun 2024 - Jun 2026

Makati City

- Developed and maintained backend applications and services.
- Implemented server-side functionalities using Erlang.
- Participated in testing, debugging, and deployment activities.
- Collaborated with team members to improve system reliability.

ON THE JOB TRAINING | A.L. E - Component International Incorporated

Jul 2023 - Aug 2023

Rosario, Cavite

- Performed hardware and software troubleshooting.
- Participated in manual testing, Windows OS installation, and IT asset inventory management.
- Collaborated with the team and technical support.

EDUCATION

BS IN COMPUTER ENGINEERING | Cavite State University - Ccat campus

Aug 2019 - Apr 2024

Rosario, Cavite

- **Development of automated microcontroller-based mist disinfectant robot**
A project that involves creating an autonomous robot powered by a microcontroller that can navigate a room, detect obstacles, and automatically disinfect surfaces by spraying mist. It is designed to clean and sanitize areas without human intervention.
- **Robotic arm using arduino**
A project that involves building a robotic arm controlled by an Arduino microcontroller, capable of moving and gripping to pick up and manipulate small objects using programmed or manual control.

TRAININGS

- **Bootcamp Level 1: Vernam 26**
Built a text encryption and decryption program using the Vernam 26 cipher in Erlang, utilizing recursion, string processing, and functional programming concepts.
- **Bootcamp Level 2: Galois LFSR (Binary)**
Built a binary Galois LFSR generator in Erlang, utilizing recursion and bit manipulation to produce pseudo-random binary sequences
- **Bootcamp Level 3: Replication Server (BCL)**
Built a data replication system that mirrors Mnesia database records using ETS, demonstrating knowledge of database synchronization, in-memory storage, and Erlang server development.

SKILLS

- | | | | | |
|--------------|-----------------|--------|----------|--------------|
| • Erlang/OTP | • C++ (Arduino) | • HTML | • CSS | • JavaScript |
| • PHP | • Sql | • Git | • GitHub | |
